RACE WITH MONITOR. Carnetton Sentches the Prize from Breeze

when Near the Winning Post-Six Good Macce, and a Small Attendance. A clear, bracing atmosphere, a cool breeze, and a superb track were insufficient to attract more than half the usual number to the races at Monmouth Park yesterday. Long rows of vacant benches attested the fact that it was an of day. The favorites in four of the six events were successful. It was expected that Breeze uld remat her brilliant performance of Saturday by winning the Elizabeth Stakes, but Carnation snatched victory from her grasp when near the goal. Heel and Toe, too, disappointed his backers by his poor exhibition, The Eole-Monitor race created intense excitement by the closeness of the contest, but to some it was apparent that Billy Donohue, Eole's race. The expectations that the Montauk yorkey, could have won with more room to spare. jockey, could have won with more room to spare.
The opening race was a three-quarters of a mile dash, purse \$500, for two-year-olds, the

much alread at the first turn, and at the initime, which was made in 50's seconds, had increased his lead to a half length. At the three-quarter pole they were running neck and neck, and at the furlong Monitor was a neck in the beat. As the two came down the homestretch Donohne was seen to be pressing his spurs savagely into Eole's flanks, and inch by inch he crept ahead, passing the judges stand winner by a neck in 2.36. The spectators on the grand stand danced and cheered, and many jushed down the steps and into the paddock to shake the hand of the victorious jockey. Eole was the favorite in the betting at \$125'. Monitor \$40. Mutuals paid \$7.25.

The fourth race was a free handicap sweepstakes of \$25 each, with \$500 added, the second receiving \$100 out of the stakes. A mile and a quarter dash, the starcers and the weights were L. V. Snedeker & Co.'s Girofa, 23', Appleby & Johnson's Jack of Hearts, 118; C. H. Pettingil's Fair Count, 25; G. L. Lorillard's Volusia, 28; S. Bryant's Charley Marks, 25', William Mulky's Topsy, 100. At the start Jack of Hearts had a baid length the lead, but Volusia, Charley Marks. Topsy, and Fair Count successively passed him before the backstop was reached. At the backstop Jack of Hearts passed Charley Marks, at the three-quarters he passed Topsy, at the Iurious he leaf Volusia. At Newark yesterday afternoon the exclamplor oarsman, William Elliottof Boston, defeated George Gaiset of New York in a well-contested race. The race was a mile and a haif and return over the Makinal regatia course dash for a \$500; purse for three-year-olds and upward, the winner to be sold at auction for \$5,000. the water togacher. Elliott, starting out with
a thirty-five stroke to Gaisel's thirty-two, soon
pushed the nose of his boat to the front, and at
the end of the first mile filliott had quickened
his pace to forty-two, and seemed, even with
that to retain his lead with difficulty, though
Gaisel was rowing the same thirty-two stroke.
The difference in the styles of rowing was
here plainly noticeable. Elliott's stoke is a
nervous jerk, catching the water suddenly and
leaving it as quickly. Gaisel's, on the other
hand, is a long sweep, in which every muscle
of back arms, and leas are made to do full
duty. The latter is by far the weaker man,
showing plainly a lick of staying qualities.
Elliott turned the stake beat first, having
made the mile and a half in eleven minutes.
At the turn Gaisel seemed to lose, for immediately afterward at least four longths were
visible between the beats. Returning, Elliott
took Gaisel's water and reduced his stroke to
thirty-eight. Hers the race was virtually ended,
though Gaisel, in response to cheers and calls
for a spurt, increased his stroke to thirty-leight. Hers the race was virtually ended,

New York and Philadelphia Nowhere in the Two-Mite Swimming Race.

The only starter from New York in the policemen's two-mile swimming race yesterday from off the Columbia College Boat Club float, on the Harlem, to McComb's Dam Bridge and back, was Henry G. Pfeifer of the Fifty-ninth street police. As he is the champlen swimmer of the force it was considered useless to enter against him. Policeman Dennis F. Butler against film. Policeman Dennis F. Butter came or, from Philadelphia. Since 1876 he has defeated several of the best swimmers in the United States and Canada. Policeman John Pierson was the dark horse. He came from Wilmington, bel., and was accompanied by Chief of Police Hawkins and Chy Gerk Lenski. Pierson has a good record as a long-distance swimmer.

Pierson has a good record as a long-distance swimmer.

The betting was in favor of the New York policeman. The start was at 3:21 P. M. Butler took the lead and kept it to within two hundred yards of the bridge at McComb's dam. Then Pierson passed him, turning the bridge first, and making the mile in 41 minutes. Butler's time was 15 minutes, and Pfeifer's 52. On the homestratelit was dollars to doughnuts on the Wilmington e.g. and he kept increasing his lead. The Quaker City man was hauled out with a cramp in his stomach. A little later Pfeifer gave up being tired of a housless stern chase. Pierson made the two miles in one hour and sixteen minutes, and did not appear at all exhausted when he left the water. FAILURE OF A VERMONT BANK. The Result of Discounting for a Raticond Owned by its President.

St. ALBANS, Vt., Aug. 6 .- The Vermont National Bank of St. Albans of which the Hon. Bradley Barlow is President, closed its doors this morning, causing great consternation among its depositors. Mr. Barlow is also Presdent and owner of the Southeastern Railway of Canada, and it is understood that he has sides a considerable amount of money loaned by banks and individuals to assist him in his railroad management. Mr. Barlow says he has assigned all of his property to the bank for the benefit of the depositors, and that his failure is due to the unsucessual result of his attempt to sell the Southeastern Railway to the Canadian Pacific Hailroad Company. He expected up to a few days ago to ac emplish the sails: but failing in this, he was compelled to suspend. The bank has discounted about \$225,000 for the Southeastern road, and a loan was made on the bends of the Boston, Montreal and Portland Railroad. Failing to raise the money on the bonds, it was deemed best to close the bank. The deposits of the bank are about \$220,000 and Mr. Barlow thinks that the depositors will be paid in full.

The Southeastern Railroad has been an active horrower in order to carry on improvements, the carnings barely covering current expenses. Its line extends from Montreal to Newport, Vt., a distance of a little over one hundred miles, and has branches to various points in the provinces, which make up a total of ture hundred miles, and has branches to various points in the provinces, which make up a total of ture hundred miles of road in operation. It is understood that Mr. Barlow had invested about \$1,000,000 in the road.

The St. Albans Trust Company has also suspended, its President Lawrence Brainerd, who was a heavy endorser on Barlow's paper, having made an assignment for the benefit of the \$500,000.

Mr. Barlow says that he had made no provision for his family, and that he and they are left about \$1,000,000 in the road.

The St. Albans Trust Company has also suspended, its President Railway are said to be \$500,000. There is no fear that the suspension of the St. Albans Trust Company will be permanent. President Brainerd's property, which he has assigned, is of great value. Unless he is unduly pressed by the evolutors of Barlow.

Rumors of the suspension of the St. Albans Bank were used all day in Wall street, and to a contract of sides a considerable amount of money loaned by banks and individuals to assist him in his

Barlow.

Rumors of the suspension of the St. Albans Bank were used all day in Wall street, and to a greater extent than the magnitude of the institution warranted. These rumors were so contradictory that up to the close of business it was not known that the bank had actually suspended. For some time past the Canadian Pacific Railway Company has had a call upon a majority of the stock of the Northeastern Railroad Company, practically a reliasal of the control, and the presumption is that Mr. Barlow had acquired the stock expecting to make the sale, and obtained assistance in currying it through his bank. The Canadian Pacific, so far as can be learned, has shown no carreness to close the bargain, possibly because its managers foresaw the collarse and expected to acquire the property, if at all, at a lower figure than it was othered to them. The correspondent in this city of the breken bank is the Pari National Bank. Its officers had not been advised of the suspension up to the close of business, it is understood that its relations with the Vermont bank were only of a routine nature.

Fishing Through a Floating Island.

Prom the Hartford Courant.

"If it rains to-morrow, what say you to a day's desing through a floating island!" inquired my rula host, as we stood in the garden of a southern Massachusetts parsonage one-evening wandering whether the raines of the western say was that which betokens rain. So when myrining came in with a smarthower a local underman drove us off southward, past the belindary stone of three States, into the town of Thompson, Coin, where we were to heard the buildood moder his native heath. The north looked black and dismail in the pouring rain, but the floating island a few role from short left littered to the view. Our fisher man rowed is even in an old soon, and stopped out with the twa chests, that both his followers had been told to bring slong. The fishing exound best moder our feel at every son, so that the black water guirged by around our antice, but so these and strong were the role of a strong port was altoyled. For sland the angine feel and expert was altoyled. For sland the angine of son the strong were the relation of the same and was thirtle overgrown with his near and sond wildows. Research to centre, each of exercises the same feel of the same time the sland, and sond of our transaction of the content of the same and was thirtle overgrown with his near and sond wildows. Research to centre, each of exercision that the mineral to the State has been a strong to the State of the State has been a second as they fell is low term in through the limit heads as son as they fell is low term in them.
